Arduino
Mobile:
Flutter

LANGUAGES

- Kurdish (Native)
- Arabic – Good (Reading & Listening), Basic (Speaking)
- English – Good (Speaking & Writing)

HASSAN SAMIR

COMPUTER ENGINEER

ABOUT ME

Computer Engineering graduate with knowledge in networking and software development. Experienced in Cisco Packet Tracer and preparing for CCNA certification. Skilled in Laravel, PHP, JavaScript, and MySQL, with hands-on project development experience. Completed internship at Fastlink Company and passionate about building efficient network and software solutions.

EXPERIENCE

Fastlink Company – Erbil
IT / Network Intern | 2025

- Assisted in supporting telecom network infrastructure, observed routing and switching operations, and helped troubleshoot connectivity issues while working with technical teams.

GPS-Based Delivery Robot – Graduation Project

- Designed and built an autonomous delivery robot using an Arduino Mega 2560, integrating GPS navigation, a digital compass for heading correction, ultrasonic sensors for obstacle avoidance, and Bluetooth for monitoring and control.

Smart Pharmacy Management System

- Academic Project: Developed a pharmacy management system using Laravel and MySQL, designed database structure, and implemented features for inventory and sales management.

HITEX Exhibition – Erbil
Volunteer

- Supported event organization and assisted visitors in a professional technology exhibition.
